NCAA

## SCHOOL OVERVIEW

ICL Academy is a revolutionary private online school (7-12) that ties students' passions and purpose with personalized academics, culminating in the best of blended learning for the next generation of inspired students. We match state-of-the-art online learning technology with the core principles of great education in order to seamlessly mold academics to students' interests.

## OUR HIGH SCHOOL PROGRAM

**Foundation** - Students build a foundational understanding of subjects, establishing proficiency given different learning styles through the use of video, class notes, texts, and audio explanations of key concepts. **Application** - Students learn to apply skills and lessons, internalize concepts, and make them their own' using critical thinking, creativity, communication, and collaboration. **Mastery** - Students demonstrate mastery and proficiency by showing how key concepts can be woven together to build bridges that connect to bigger broader issues. Students extend tasks to "authentic" contexts and realistic scenarios, which in turn relate back to students' own lives, or to help students to build a better understanding of the world.

## CURRICULUM AND COURSES

We offer a host of engaging courses for students in grades 7-12. Courses draw on real-life experiences, offer a global perspective, and help both students who want to leap forward or just catch up.
